Innovative work

Invented five instruments used in the field of medical science;

- 1. Apparatus For Insufflation Of Single / Multi Dose Of Dry Powder Drug**
- 2. Portable Device For Enhancement Of Self-Voice Hearing For Vocal Misuser.**
- 3. Inkebaabe Raas Equipment (Steaming of Head)**
- 4. Specialized drug Applicator for EAR**
- 5. Fumigation Apparatus for Ear.**

Instruments applied for Patent:

The following instruments applied for getting patent in patent Office, Intellectual property of India, Department of Industrial policy and promotion, Ministry of commerce and Industry, Government of India. The detail of these instruments has been published in official journal of patent office.
